# MINDATHON SCIENCE OLYMPIAD (MSO)

## CLASS-II

### **TEST PAPER**

Time: 1 hour Max Marks: 40

#### **General Instructions:**

- There are a total of 35 questions in this test.
- Read each question carefully and answer all of them.
- All the answers must be correctly marked in the OMR sheet provided to you.
- Questions (1-30) carry one mark each. Questions in the "Mindathon Little Scientists" (31-35) carry 2 marks each.

#### SECTION A: GENERAL SCIENCE AND SCIENTIFIC AWARENESS

Which of the following cannot make their own food?

- We obtain medicines from which of the following plants? 2.
  - a) Tulsi

- b) Neem
- c) Cinchona
- d) All of these

- 3. Which of these is a sense organ in our body?
  - a) teeth

b) hair

- c) fingers
- d) ears

- Nomads live in what type of houses? 4.
  - a) houseboat
- b) tent

- c) hut
- d) apartment
- The animals shown below have which of the following features? 5.

a) They are wild and herbivorous.

- b) They are wild and carnivorous.

c) They are domestic and herbivorous.

d) They are domestic and carnivorous.

- 6. Which of the following is not a shrub?
  - a) rose

- b) marigold
- c) sunflower
- d) mint

- 7. We find which of the following plants in a desert region?
  - a) Coconut
- b) pine

- c) cactus
- d) banana

Coir is obtained from the fruit of which of the following plants?					
a)	b)	c)	d)		
Which of the following is a means of transport for land only?					
a) Autorickshaw	b) Helicopter	c) Boat	d) Submarine		
The process by which cotton threads are converted into a cloth is called					
a) spinning	b) shearing	c) weaving	d) knitting		
What do we use to protect ourselves from the heat and glare of the sun's rays?					
a) sunglasses	b) hats	c) umbrellas	d) all of these		
Special dress of a country is called its					
a) uniform	b) traditional dress	c) kimono	d) costume		
We get silk from					
a) honeybee	b) sheep	c) silk worm	d) cow		
Our helpers who do not wear a uniform include					
a) policeman	b) soldier	c) pilot	d) vegetable vendor		
From where do we get pulses?					
a) animals	b) plants	c) mountains	d) sea water		
	SECTION B: EVERYE	DAY SCIENCE			
A: Plants show movement.					
B: The sunflower always turns towards the sun.					
a) Both A and B are incorrect.		b) Only A is correct.			
c) Both A and B are correct.		d) Only B is correct.			
Which of the following objects allow light to pass through them?					
a) metallic sheet	b) glass pane	c) textbook	d)wooden plate		
The shadows change direction with the change in the position of the					
a) surface	b) light source	c) object	d) any of these		
The 'festival of lights' is the name given to and is celebrated by the					
a) Diwali, Hindus					
b) Diwali, Sikhs					
c) Onam, Hindus					
d) Onam, Sikhs					
	Which of the following is a) Autorickshaw The process by which coa) spinning What do we use to prote a) sunglasses Special dress of a count a) uniform We get silk from a) honeybee Our helpers who do not a) policeman From where do we get pa) animals  A: Plants show movement B: The sunflower always a) Both A and B are incomound by a metallic sheet The shadows change dia) metallic sheet The shadows change dia) surface The 'festival of lights' is to a) Diwali, Hindus b) Diwali, Sikhs c) Onam, Hindus	Which of the following is a means of transport for a) Autorickshaw b) Helicopter The process by which cotton threads are conver a) spinning b) shearing What do we use to protect ourselves from the head is sunglasses b) hats Special dress of a country is called its a) uniform b) traditional dress We get silk from a) honeybee b) sheep Our helpers who do not wear a uniform include a) policeman b) soldier From where do we get pulses? a) animals b) plants  SECTION B: EVERYE  A: Plants show movement. B: The sunflower always turns towards the sun. a) Both A and B are incorrect. c) Both A and B are correct. Which of the following objects allow light to pass a) metallic sheet b) glass pane The shadows change direction with the change a) surface b) light source The 'festival of lights' is the name given to a) Diwali, Hindus b) Diwali, Sikhs c) Onam, Hindus	Which of the following is a means of transport for land only?  a) Autorickshaw b) Helicopter c) Boat  The process by which cotton threads are converted into a cloth is call a) spinning b) shearing c) weaving  What do we use to protect ourselves from the heat and glare of the st a) sunglasses b) hats c) umbrellas  Special dress of a country is called its a) uniform b) traditional dress c) kimono  We get silk from a) honeybee b) sheep c) silk worm  Our helpers who do not wear a uniform include a) policeman b) soldier c) pilot  From where do we get pulses? a) animals b) plants c) mountains  SECTION B: EVERYDAY SCIENCE  A: Plants show movement. B: The sunflower always turns towards the sun. a) Both A and B are incorrect. b) Only A is correct. c) Both A and B are correct. d) Only B is correct. Which of the following objects allow light to pass through them? a) metallic sheet b) glass pane c) textbook  The shadows change direction with the change in the position of the a) surface b) light source c) object  The 'festival of lights' is the name given to and is celebrate a) Diwali, Hindus b) Diwali, Sikhs c) Onam, Hindus		

20.	This food item can be obtained from which of the following animals?					
	a) Hen					
	b) Duck					
	c) Ostrich			•		
	d) All of these					
21.	In hot and humid weather, we prefer to wear					
	a) Cotton clothes of light colour					
	b) Woollen clothes of light colour					
	c) Silk clothes of dark colour					
	d) Cotton clothes of dark colour					
22.	The lead of a pencil is made from which rock?					
	a) Gneiss		b) Slate			
	c) Graphite		d) granite			
23.	Which of the following fruits have more than one seed?					
	a) litchi	b) papaya	c) mango	d) jamun		
24.	Which of the following means of transport does not produce smoke?					
	a) Bus	b) Motor Cycle	c) Car	d) None of these		
25.	When we go on a trip to Kashmir, we can see in Dal Lake.					
	a) houseboat	b) caravan	c) flats	d) none of these		
26.	When we go on a trekking trip, we sleep in the					
	a) igloo	b) tents	c) houseboats	d) huts		
27.	Which of the following can move on its own?					
	a) phone	b) machine	c) monkey	d) paper		
28.	You got a puppy home. Where will you keep it?					
	a) burrow	b) shed	c) nest	d) kennel		
29.	What should we do to be fit and healthy?					
	a) Eat junk food					
	b) eat lots of snacks					
	c) eat only fruits					
	d) eat healthy food					
30.	One should always take a bath using					
	a) soap and water					
	b) dirty water					
	c) drinking water					
	d) boiled water					

## **SECTION C: MINDATHON LITTLE SCIENTISTS**

- 31. Mark T if the statement is true and F if it is false:
  - (i) Digestion of starch starts in the stomach.
  - (ii) The tongue helps in mixing food with saliva.
  - (iii) The gall bladder temporarily stores bile.
  - a) FTT

b) TFF

- c) TFT
- d) FTF

32. Observe the following:

What happens when torch light falls on the flower-shaped obstacle?

- a) A shadow is formed behind the torch.
- b) A shadow smaller than the card is formed.
- c) A shadow bigger than the object is formed.
- d) There is no shadow formed.
- 33. Your uncle's friend Sachin works in a tea stall. His grandmother lives far in a village and falls sick. He wants to meet her for the last time. How would you help him?
  - a) Try to make him laugh by cracking jokes.
  - b) Ask your uncle to arrange train tickets for him.
  - c) Ask him to go home and sleep.
  - d) Ignore him and play with other friends.
- 34. Find the mismatched pair of animal and its home in the following.
  - a) pig- sty

- b) hen- coop
- c) lion- burrow
- d) bear- cave

- 35. Match the animals with their young ones:
  - p. Elephant
- I. Joey
- q. Kangaroo
- m. Foal
- r. Deer
- n. Kitten
- s. Cat
- o. Cub
- a) p-l; q-o; r-m; s-n

b) p-n; q-l; r-m; s-o

c) p-o; q-l; r-n; s-m

d) p-o; q-l; r-m; s-n
